## EDUCATION

### MIT WPU ,PUNE, India

Bachelors of Technology in Computer Science and Engineering

Aug 2021 - Jul 2025

GPA: 8.7/10.0

## EXPERIENCE

### Augmented Transformation- Software Engineer

Full Time Intern

June 2024 - Present

City, Pune

- Working as a full-time intern at Augmented Transformation as a Trainee Software Engineer, specializing in High-Performance Computing (HPC).
- Utilizing MPI, Docker, and Kubernetes to create and manage HPC clusters, enabling parallel code execution and optimization.
- Focusing on code optimization and reducing execution time on servers, enhancing overall system performance and efficiency.

### SIEMENS- Android Developer

Java Android Developer

April 2024 - May 2024

City, Bhopal

- Attained Android Development certification using Java from Siemens after a 15-day course at NITTTR Bhopal.
- Demonstrated mastery in Java for Android app development and a deep understanding of mobile software engineering principles.

## PROJECTS

### E-COMMERCE WEBSITE (NodeJS, MongoDB, React)

December 2023

Live

- Directed the development of an innovative Electronics E-Commerce platform, increasing monthly transactions
- Implemented Stripe as the payment gateway, boosting transaction success rates and fostering repeat customer engagement.

### Online Meeting Website (React, Socket.io, Blockchain, WebRTC)

August 2023

Live

- Developed a secure online meeting system using blockchain, WebRTC, and decentralized storage with real-time communication via Socket.IO.
- Enhanced frontend and backend functionality using React.js, Vite.js, Node.js, and Express.js.

### Online Food Ordering System (JavaScript, React, MySQL, APIs)

November 2023

Git

- Developed an online food ordering system using JavaScript, React, MySQL, and APIs, with automated email notifications via Nodemailer.
- Ensured efficient order processing and data security with robust data management using MySQL.

### Stock Market Analysis (Spark, MongoDB, ML, EDA, Data Transformation)

December 2023

Git

- Developed a stock market analysis project utilizing Spark and MongoDB for efficient data retrieval, transformation, and exploratory data analysis, enhancing predictive insights with machine learning models.
- Implemented robust data management and visualization techniques, leveraging clustering algorithms and visualization libraries like Matplotlib and Seaborn to provide in-depth stock market analysis.

## ACHIEVEMENTS

### DATA STRUCTURES

Earned a Data Structures in Java certification from Udemy, demonstrating proficiency in using Java for efficient problem-solving and data manipulation. 2023

### ANDROID DEV

Earned an Android Development certification using Java from Siemens after a 15-day course at NITTTR Bhopal, demonstrating expertise in mobile software engineering principles. 2024

## TECHNICAL SKILLS

**Programming languages:**Java,C++

**ML/AI:** Pytorch, Numpy, Pandas, Matplotlib

**DevOps:** Docker, Kuberbets,OpenMpi,HPC

**Web Technologies:**HTML, CSS, React, JavaScript

**Miscellaneous:**MySQL, MongoDB, Git, RestApi

## RELEVANT COURSEWORK

**Computer Science:** Data Structures and Algorithms, Databases, Operating Systems,Big Data,Computer Network,OOPS,UIUX

**Mathematics:** Optimization, Discrete Maths, Probability and Random Processes, Number Theory, Linear Algebra

## POSITIONS OF RESPONSIBILITY

### Innovation Hub-Committee member(COLLEGE-CLUB):

2022-2024

Led front-end development in diverse projects, innovating to boost user satisfaction
