[linkedin](#)

OBJECTIVE :

Software Developer specializing in C++ and system software optimization. Passionate about AI-driven applications, scalable architectures, and problem-solving using data structures & algorithms. Proficient in optimizing software performance, multithreading, and memory management. Strong background in object-oriented programming, STL, and low-level system design. Experienced in Agile methodologies and problem-solving, with a passion for building efficient and scalable software solutions.

EDUCATION :

CHANDIGARH UNIVERSITY

2022 - 2026

BACHELOR OF ENGINEERING - COMPUTER SCIENCE & SOFTWARE ENGINEERING -7.5 CGPA

SARVHITKARI VIDYA MANDIR

2018 - 2021

12TH CBSE (2021) - 82% | 10TH CBSE (2019) - 81.6%

TECHNICAL SKILLS :

- Language:- C++ , Java, python
- Database: - MySQL, MongoDB.
- Data Analysis: - NumPy, Pandas, Matplotlib.
- OOPs, STL, Data Structures & Algorithms

INTERPERSONAL SKILL :

- Communication
- Leadership and Teamwork
- Adaptability
- Problem-Solving.

TOOLS AND PLATFORM:

- VS Code
- Google Colab

PROJECTS :

Code Editor with AI Autocomplete (C++ & Web)

Dec 2024- Jan 2025

- Created an AI-integrated code editor with auto-suggestion and syntax highlighting for C++ programming.
- Utilized React.js, Electron.js, and OpenAI API for a smooth user experience.

Sentiment Analysis (NLP)

Jun 2024- Aug 2024

- Implemented an NLP-based sentiment classification model with tokenization, stemming, and stop-word removal.
- Achieved 92% accuracy in sentiment classification using NLTK , TensorFlow and Pandas.

Chat Application (C++, Multithreading)

Dec 2024- May 2024

- Developed a real-time chat application using C++, TCP sockets, and multithreading to enable simultaneous messaging for multiple users.
- Optimized C++ data structures & algorithms, reducing execution time by 30%.

INTERNSHIP:

INTERNSelite

Dec 2023 - Feb 2024

- Engineered optimized data structures and algorithms in C/C++ to enhance computational efficiency.
- Developed and tested high-performance algorithms for real-world applications.

HRM & Growth Operations Intern - LERNX

Jun 2023 - Jul 2023

- Conducted data-driven analysis to optimize business growth and operations.
- Collaborated with cross-functional teams to improve operational strategies

CERTIFICATIONS:

- Programming for Everybody (Python) - Coursera Jun 2024 - Aug 2024
- Natural Language Processing Fundamentals - Infosys Springboard May 2024 - Jun 2024
- Databases & SQL for Data Science with Python - Coursera Jan 2024 - Feb 2024
- AI & Data Science Upskilling Program - IIT Ropar Sep 2021 - Feb 2022
