OBJECTIVE

Computer Science Engineering graduate specializing in Java backend development with Spring Boot, REST APIs, and MySQL, complemented by hands-on AWS deployment (EC2, Lambda, S3, IAM, VPC) . Actively learning and building AI-integrated Java applications — combining Spring Boot microservices with Spring AI and retrieval-augmented generation (RAG) — with the goal of engineering in making java easier and AI friendly language providing secured AI tools in the future.

EDUCATION

Chandigarh University, India

Bachelor of Engineering, Computer Science and Engineering

Sept 2022 – Jun 2026

CGPA: 6.58/10.0 || Percentage: 65.8

TECHNICAL SKILLS

Languages:Java 8+, SQL

Backend: Spring Boot, REST APIs

Cloud: AWS (EC2, S3, IAM, VPC)

Concepts: OOPs, Multithreading, Collection Framework, Stream Api,JWT

Soft Skills: Problem Solving, Adaptability and Work Ethics

INTERNSHIP

BELTRON (Bihar State Electronic Development Corporation Ltd)

Cloud Computing& Networking Intern

May 2024 – July 2024

Patna, India

- Worked with firewall tools like Trend Micro, Checkpoint, BIG-IP F5, and Force point SEV
- Created disaster recovery documentation for virtual machines using Azure and VMware.
- Gained exposure to cloud infrastructure and networking environments.

PROJECTS

Application Tracker Tailwind Css, Springboot, AWS

LIVE

- Built a serverless AI microservice on AWS EC2 and Lambda, using CloudWatch for centralized logging and monitoring, enabling automated execution tasks without manual intervention.
- Used Tailwind Css for frontend user dashboard

SmartHire — AI Resume Screening Java, Postgre,Rest, ML

GIT

- Built a scalable backend using Spring Boot to process and rank 1000+ resumes using NLP-based similarity scoring and role-based authentication (JWT).
- Designed RESTful APIs enabling seamless integration between frontend dashboard and ML models

Pneumonia Image Analysis Java, Spring Boot, DL4J, RAG

GIT

- Built a Spring Boot AI microservice combining a DeepLearning4J (DL4J) CNN for chest X-ray classification (pneumonia vs. normal) using Kaggle dataset.

CERTIFICATIONS

- Oracle Java Foundations
- Oracle Agentic AI Foundation (2026)
- Advance Java – Link
- IBM Gen AI Prompt Engineering Basics – Link
- NPTEL Cloud Computing
